Robinson Gardens

The 6.5 acre Virginia Robinson estate, built in 1911, is a fine example of Beaux Arts architecture and a valuable historical and cultural resource. The integrity of the mature garden specimens and historic home remains unaltered.

Listed on the National Register of Historic Places, it is the oldest public botanical garden in Los Angeles and is utilized as a testing ground by the Los Angeles County Department of Arboreta.

The Friends of Robinson Gardens, a non-profit, tax exempt, support group was formed in 1983. In two short years, replacement of the entire roofs of the main residence and guest pavillion has begun, additional gardeners have been hired, restoration of the fine hand-painted ceilings is in progress and Docent guided tours are available to the public.

Proceeds from this event will be used to further the restoration and preservation of the gardens for the enjoyment of generation upon generation.
